Old Catton Junior School

Skills Map – Relationships and Sex Education

Christian Distinctiveness Statement

The RSE curriculum compliments the PSHE curriculum taught at Old Catton C of E Junior School. The approach of the RSE curriculum allows pupils to talk positively about healthy, fulfilling relationships based on 'Love' trust, respect and communication, encouraging pupils to aspire to and enjoy healthy and respectful relationships. RSE empowers children to feel 'Hope' as they learn to build self-esteem, positive and open views, supporting mutual respect and celebration of self and others. Pupils can develop their own values and skills to put into practice in the real world bringing 'Joy' to the school community as they learn to make safe choices and healthy decisions, whilst exploring their views and learning from the views of others.

Our school bible story is the Parable of the Lost Sheep. The shepherd looks out for his sheep and makes a bold choice. He has the confidence and faith to ensure that no one is left behind and sees the uniqueness and value of each individual. Amongst other aspects, the RSE curriculum teaches children about gender stereotypes and sexual orientation so pupils understand that everyone is unique and valued as individuals, just like shepherd in the parable.

Curriculum overview and delivery

RSE will deliver a spiral curriculum that enables pupils to build on their prior learning by revisiting themes to enable pupils to build on their prior learning by revisiting some themes to further develop knowledge, values and skills in an age and stage-appropriate manner. As such, some themes are repeated to enable a deeper exploration of the related issues.

The purpose of each of our RSE lessons is to answer questions about the wider world, the status quo and to develop our understanding of the workings of relationships and the human body. Consequently, it is harder to determine what Greater Depth looks like within discrete lessons, and while some topics have outcomes which specifically lend themselves to fitting an assessment criteria; others do not. Instead we look to individuals and how they perceive themselves and others, and approach challenges in their lives. By using individual case studies, conversations and the attitudes of pupils in our school, we can get a true understanding of their knowledge, beliefs and values towards their roles and responsibilities to the wider world.

Due to the nature of our RSE lessons, we do not produce the same amount of in-depth written work as other subjects. We instead opt for deeper thinking and discussions during our sessions to promote an inclusive environment for all children, regardless of their knowledge and ability. However, some topics require written activities in order to consolidate pupils' learning at the teacher's discretion.

Our evidence of RSE lessons comes in scrapbooks and discussions with pupils. The nature of our lessons are very child-led and have a vast amount of practical activities which teachers will endeavour to evidence in scrapbooks but due to some lessons being fast moving, this may not be possible but instead, conversations with pupils will provide evidence of their learning and understanding.

Appendix 1: PSHE/RSE Long Term Plans
Appendix 2: RSE mapped to PSHE guidance

3 Year Group Three

My feelings	My body	My relationships	My beliefs	My rights and responsibilities	Asking for help
Pupils can identify their personal strengths and set aspirational goals for themselves, understanding how this contributes to and builds self-esteem.	Pupils know how their body may change as they grow and develop, how to care for their body and celebrate their uniqueness.	Pupils can recognise a wide range of relationships, including attributes of positive, healthy relationships.	Pupils can challenge gender stereotypes, understanding that there is not one way to be a boy, or one way to be a girl.	Pupils understand the right to protect their body from unwanted touch.	Pupils can identify the difference between secrets and surprise, knowing when it is right to break a confidence and share a secret.
Skills			Outcomes		
<ul style="list-style-type: none"> • Can they recognise and challenge stereotypes? • Can they recognise the risks and how to behave appropriately • Can they understand how their body changes over time • Are they aware of different types of touch 			<ul style="list-style-type: none"> • To understand how families have different family members • To identify who to go to for help and support • To know how I belong • To understand how to overcome peer pressure • To understand different kinds of touch and personal space • To give real life advice and problem solve • To explore gender stereotypes • To know the differences between males and females • To understand how my body changes throughout my life 		
Key Vocabulary					
Stereotypes, gender roles, similar, different, male, female, body part, penis, vagina,					
Cross Curricular links with Science:					
As we work on a rolling programme, pupils in Year 3 may be accessing the Year 4 curriculum for Science. Therefore, the following Year 4 objectives may be covered in Year 3:					

Living things and their habitats (Living in Environments, Year 2, Summer 2)

- Explore and use classification keys to help group, identify and name a variety of living things

Cross-Curricular links to Computing:

Use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact.

4 Year Group Four

My feelings	My body	My relationships	My beliefs	My rights and responsibilities	Asking for help
Pupils can recognise and respond to a wide range of emotions in themselves and others and know ways to respond.	Pupils can reflect on how their body has changed and anticipate body changes, understanding that some are related to puberty.	Pupils are able to judge what kind of physical behaviours and contact are acceptable and unacceptable, and ways to respond.	Pupils recognise differences and similarities between people arise from a number of factors including family types and personal identity.	Pupils know marriage is a commitment freely entered into by both people, and that no one should marry if they don't absolutely want to or are making the decision freely for themselves.	Pupils can recognise when they may need help to manage a situation and have developed the skills to ask for help.
Skills			Outcomes		
<ul style="list-style-type: none"> • Can they recognise and challenge stereotypes? • Can they understand how the body changes throughout life? • Are they aware of puberty? • Can they recognise the emotional and physical changes of puberty? 			<ul style="list-style-type: none"> • To understand how families have different family members • To identify who to go to for help and support • To know how I belong • To explore gender stereotypes • To know the differences between males and females • To understand how my body changes throughout my life • To understand what puberty is • To know about the physical and emotional changes of puberty • To understand that each person experiences puberty differently 		
Key Vocabulary					
Stereotypes, gender roles, similar, different, male, female, penis, vagina, puberty, period, pregnancy					
<p>Cross Curricular links with Science: As we work on a rolling programme, pupils who have not covered these objectives in year 3, will cover them in Year 4: Living things and their habitats (Living in Environments, Year 2, Summer 2)</p> <ul style="list-style-type: none"> - Explore and use classification keys to help group, identify and name a variety of living things <p>Cross-Curricular links to Computing:</p>					

Use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact.

5 Year Group Five

My feelings	My body	My relationships	My beliefs	My rights and responsibilities	Asking for help
Pupils can anticipate how their emotions may change as they approach and/or move through puberty.	Pupils can anticipate how their body may change as they approach and/or move through puberty.	Pupils can identify healthy relationships and recognise the skills to manage and maintain healthy relationships.	Pupils know the correct terms associated with gender identity and sexual orientation, and the unacceptability of homophobic and transphobic bullying.	Pupils have strategies for keeping safe online; knowing personal information including images of themselves and others can be shared easily and without their permission.	Pupils have considered how to manage accidental exposure to explicit images, and upsetting online material, including who to talk to about what they have seen.
Skills			Outcomes		
<ul style="list-style-type: none"> • Can they recognise and challenge stereotypes? • Can they understand how the body changes throughout life? • Are they aware of puberty? • Can they recognise the emotional and physical changes of puberty? • Can they use strategies to cope with changes? 			<ul style="list-style-type: none"> • To understand how families have different family members • To identify who to go to for help and support • To know how I belong • To explore gender stereotypes • To understand how my body changes throughout my life • To know how to keep clean • To understand and describe different coping strategies • To explore how the body changes throughout puberty • To understand what hormones are 		
Key Vocabulary					
Stereotypes, gender roles, similar, different, male, female, penis, vagina, period, puberty, hormones					
<p>Cross-Curricular links to Science: In Upper Key Stage 2, we have a 2 year rolling programmes so children will cover the Year 5 and 6 objectives within these 2 years. <u>The following Year 5 objectives will be covered:</u> Living things and their habitats (Life Cycles, Year 1, Autumn 1):</p> <ul style="list-style-type: none"> - Describe the differences in the life cycles of a mammal, amphibian, an insect and a bird - Describe the life process of reproduction in some plants and animals Animals including humans (Changes and Reproduction, Year 2, Summer 2):					

- Describe the changes as humans develop to old age
- Compare the gestation periods of humans to other animals

The following Year 6 objectives will be covered:

Living Things and Their Habitats (Classifying Organisms, Year 1, Summer 1)

- Describe how living things are classified into broad groups according to common observable characteristics and based on similarities and differences, including plants, animals and micro-organisms

Animals including Humans (Health Bodies, Year 2, Autumn 1)

- Recognise the impact of diet, exercise, drugs and lifestyle on the way their bodies function

Evolution and Inheritance (Evolution and Inheritance, Year 1, Spring 1)

- Recognise that living things produce offspring of the same kind but normally offspring vary and are not identical to their parents

Cross-Curricular links to Computing:

Use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact.

6 Year Group Six

My feelings	My body	My relationships	My beliefs	My rights and responsibilities	Asking for help
Pupils can recognise how images in the media, including online do not always reflect reality and can affect how people feel about themselves.	Pupils can explain what sexual intercourse is and how this leads to reproduction, using the correct, scientific terms to describe the male and female organs.	Pupils realise the nature and consequences of discrimination, including the use of prejudicial based language.	Pupils know some cultural practices are against British law and universal human rights, including female genital mutilation (FGM).	Pupils have an awareness that infections can be shared during sexual intercourse, and that a condom can help to prevent this.	Pupils develop the confidence and skills to know when, who and how to ask for help independently or with support.
Skills			Outcomes		
<ul style="list-style-type: none"> • Can they recognise and challenge stereotypes? • Can they understand how the body changes throughout life? • Are they aware of puberty? • Can they recognise the emotional and physical changes of puberty? • Are they aware of risks and how to deal with them? 			<ul style="list-style-type: none"> • To understand what hormones are • To explore different strategies to deal with changes • To explain physical changes in males and females (periods, puberty) • To be able to identify some risks in specific situations • To be able to identify what influences their decisions • To understand how self-confidence, communication skills and assertiveness can help them to keep safe 		
Key Vocabulary					
Stereotypes, gender roles, similar, different, male, female, penis, vagina, period, puberty, risk, challenge, decision					
<p>Cross-Curricular links to Science: In Upper Key Stage 2, we have a 2 year rolling programmes so children will cover the Year 5 and 6 objectives within these 2 years. <u>The following Year 5 objectives will be covered:</u> Living things and their habitats (Life Cycles, Year 1, Autumn 1):</p> <ul style="list-style-type: none"> - Describe the differences in the life cycles of a mammal, amphibian, an insect and a bird - Describe the life process of reproduction in some plants and animals <p>Animals including humans (Changes and Reproduction, Year 2, Summer 2):</p> <ul style="list-style-type: none"> - Describe the changes as humans develop to old age
