Dear Parents/Carers,

I am writing to you to alert you to a website that we have been informed is unsafe for children to use. omegle.com is an online chat site. It contains highly inappropriate content for children and the facility to make contact with strangers via videos and messages. I wanted to alert you to this website so that if your child is recommended it by friends or it comes up as a link within another site they are using, you are aware of it.

As children are currently spending more time online, both for their learning and to socialise, I recommend checking your parental controls, filters and online safety technologies at home and on your child's devices.

Please also talk to your child about staying safe online. I have written a piece for the children about this on their newsletter this week but having these open conversations with your child and monitoring their behaviour and access online is the best way to help them stay safe.

Many thanks for your support.

Kind Regards,

A handwritten signature in blue ink that reads 'Connelly'.
